

Bachelor of Technology in Information Technologies Background Review and Release

BACKGROUND REVIEW

- I understand most prospective employers will conduct background checks prior to hiring a new employee.
- I understand individuals seeking employment with anything other than a clear background check may experience great difficulty obtaining employment in the field of Information Technologies, and this is especially true in the area of information security.
- I understand I am fully responsible for my personal conduct, and acknowledge that engagement in any past, present or future illicit activities (e.g., illegal drug use, computer fraud) may hinder my employment opportunities.
