Oklahoma State University Institute of Technology Institutional Fact Book

The information contained in the Institutional Fact Book is collected from several Oklahoma State University Institute of Technology (OSUIT) offices. The enrollment data are based on the preliminary data stored after the last day to drop courses with no grade record which is traditionally the end of the second week of classes. The retention, graduation rates, and degrees awarded information is based on end-of-term data. The faculty information is provided by the Human Resources Office, the financial information is provided by the Accounting department, and the library holdings information is provided by the OSUIT Library.

Please note that, to the extent possible, the data presented on the following pages represent snapshots taken at the same time of the academic year. In some instances, however, variations in reporting cycles have limited our ability to do so. For this reason, the reader who attempts to cross-reference certain data tables may find discrepancies which may not be due to inaccuracies in the data.

Additional copies may be printed or downloaded from the OSUIT Institutional Research website (osuit.edu/research/).

Enrolled--First-time, Degree-Seeking Freshmen

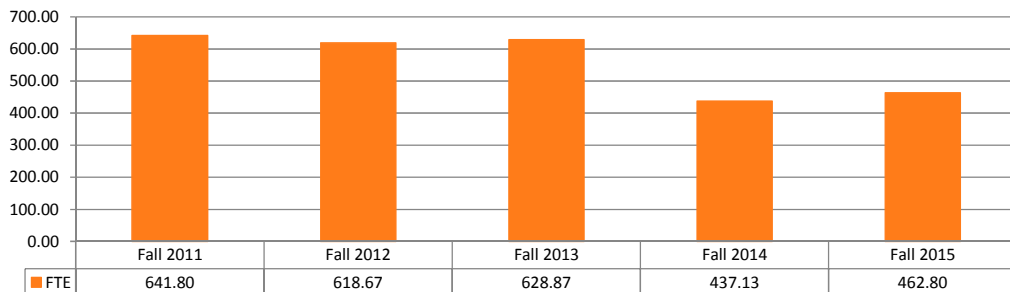

Decrease Fall 2014 due to College of Muscogee Nation becoming more self-sufficient with new accreditation, some programs are redistributing freshman admissions/enrollment, and uncertainty involving cooperative alliance credit.

Financial Facts

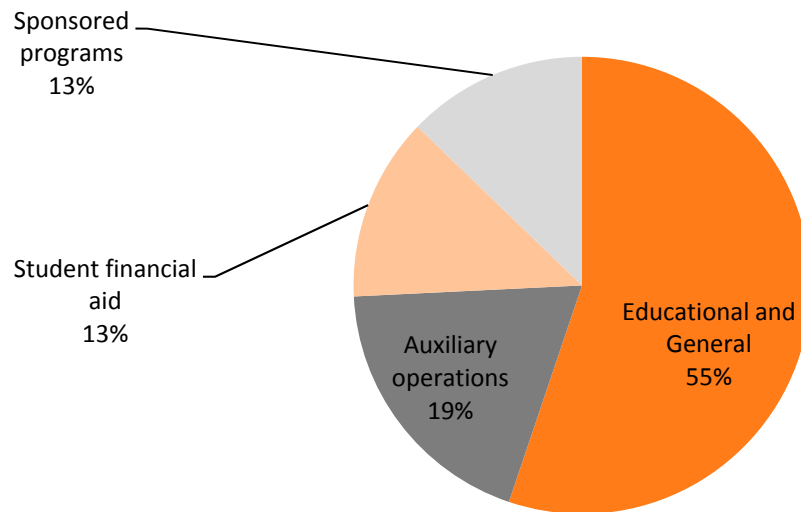

The financial information reported here includes the planned sources and uses of funds for the twelve months ending June 30, 2016. State appropriations decreased from the prior year while revenue from tuition and fees is expected to remain the same. OSUIT programs are greatly augmented by assistance from alumni and corporate partners through sponsored programs.

The operating budget is comprised mainly of instructional expenditures. Funds used to operate the auxiliary operations and sponsored programs complete the planned expenditures.

Payroll is the largest component of the budget. The university's payroll is estimated to be \$26,548,100 for the fiscal year that ends June 30, 2016. The remaining expenditures are supplies, utilities and maintenance of the facilities. These expenditures have an enormous impact on the local economy.

Expenditures \$59,833,000

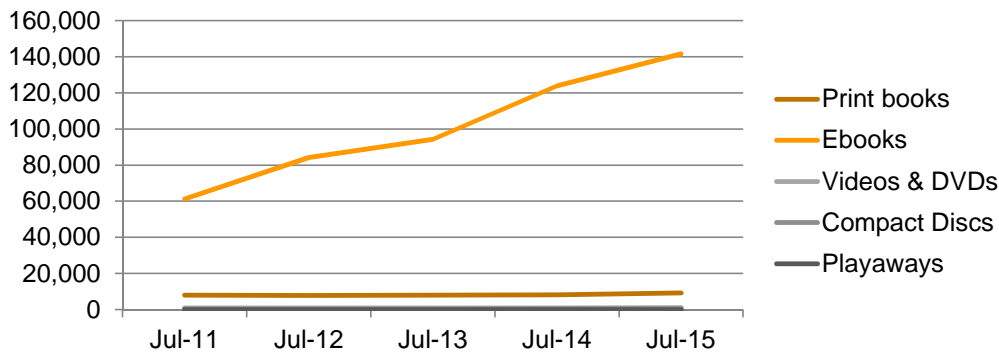

Renovations to classrooms continue to be a major focus for capital projects. The demand for student housing is the focus of the auxiliary enterprises. The committee has many projects in the planning stages that will provide much needed housing in the future.

The entrance to campus has been enhanced this fiscal year began with the dedication of the new Pistol Pete statue as well as upgrades to signage at campus entrances.
