Oklahoma State University Institute of Technology Institutional Fact Book

The information contained in the Institutional Fact Book is collected from several Oklahoma State University Institute of Technology (OSUIT) offices. The enrollment data are based on the preliminary data stored after the last day to drop courses with no grade record which is traditionally the end of the second week of classes. The retention, graduation rates, and degrees awarded information is based on end-of-term data. The faculty information is provided by the Human Resources Office, the financial information is provided by the Accounting department, and the library holdings information is provided by the OSUIT Library.

As you know, COVID 19 disrupted almost every part of life and some of our numbers reflect that disruption. Please keep in mind that decisions and changes had to be made while keeping the health and safety of our students in mind. Most classes for fall 2020 were changed to some type of online format either completely online, hybrid, or blended. Some classes and labs were held in person while maintaining social distancing and wearing masks. For fall 2021, OSUIT brought back more hands-on and in-person courses while continuing to offer online courses.

Please note that, to the extent possible, the data presented on the following pages represent snapshots taken at the same time of the academic year. In some instances, however, variations in reporting cycles have limited our ability to do so. For this reason, the reader who attempts to cross-reference certain data tables may find discrepancies which may not be due to inaccuracies in the data.

Additional copies may be printed or downloaded from the OSUIT Institutional Research website (osuit.edu/research/).

Financial Facts

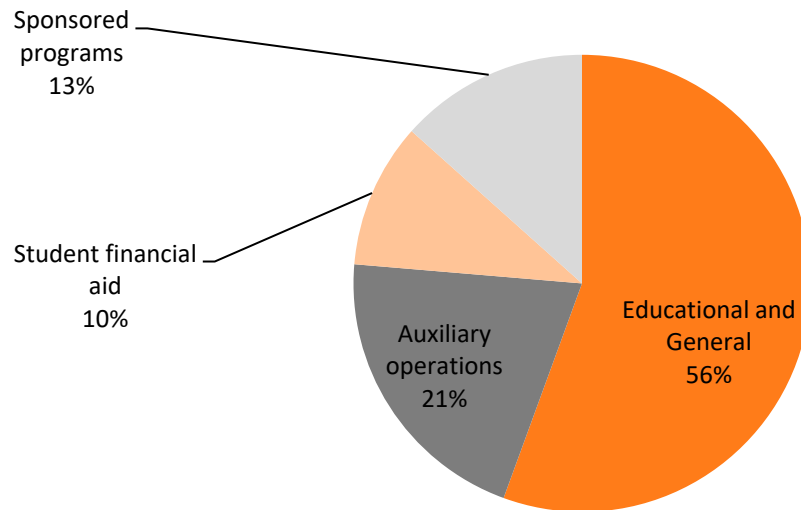

The financial information reported here includes the planned sources and uses of funds for the twelve months ending June 30, 2022.

Revenue \$69,614,902

State appropriations are projected to be slightly more than they were last fiscal year and are approximately the same as they were in fiscal year 1997, almost thirty years ago. The continued global pandemic has decreased the anticipated revenue for this year. Fewer students are expected to live on campus which will hinder the self-supporting auxiliary operations. Most of the university's programs require some hands on learning, so increases in pandemic infections may affect enrollment.

Expenditures \$69,614,902

The budget is comprised primarily of the Educational and General budget. This portion of the expenditures are for the educational mission of the university. The categories of educational and general expenditures include instruction and academic support as well as student and institutional support and the operation and maintenance of buildings and grounds. Auxiliary operations are another major portion of the budget. Auxiliary operations provide housing, food services, bookstore and other activities for students. Student financial aid and sponsored programs (grants) complete the planned expenditures.

Payroll is the largest component of the budget. The university's payroll and associated benefits are estimated to be \$24,770,160 for the fiscal year that ends June 30, 2022. This is about the same as it was in the prior fiscal year. The remaining planned expenditures are supplies, utilities, student financial aid, maintenance of the facilities, and grant related expenditures.
