♣ Make a list of organizations, churches, and foundations to use as subcategories for your search. Being specific will decrease the time you spend in your search and will yield better results.
♣ Use a variety of search engines because each will yield different results, i.e., google, yahoo, and altavista.
♣ After reaching a desired web site, check the sides or top of the home page for links to scholarships, grants, financial aid, funding financial assistance, or education, etc.
♣ Keep a list of web sites visited to reduce duplication in your search.
